

TRUCLEAR™ SALTWATER CHLORINATION

SIMPLE, RELIABLE

SALTWATER CHLORINATION

Easy to install, use, and service

Setting a New Standard for Saltwater Chlorinators

The TruClear Salt System was designed from the ground up to be simple to own and maintain without sacrificing performance or reliability.

Extreme Reliability

Simple construction using legendary Jandy Never Lube® Valve material for long-term durability.

Easy to Install

Two models available — one for new construction and one with 2-2½" unions for retrofit installations.

Simple to Inspect

Clear window on top allows easy visual inspection of blades.

Convenient to Clean

Unscrew the cell from the body, hold onto the cord, and easily dip into the cleaning solution.

Versatile

Tool-free twist-lock cord connector for one-step, foolproof electrical connection to the power pack.

Energy-Efficient

Works at extremely low-flow rates, so TruClear is fully compatible with today's variable-speed pumps.

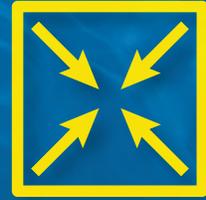

OTHER FEATURES:

Auto-reversing polarity
reduces calcium buildup

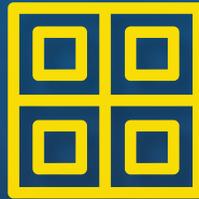

Tool free inspection,
servicing, and cleaning

Compact design for easy
integration into most
equipment pad configurations

Digital display for
easy output adjustments

Self-contained —
automation optional,
but not required

Patent-pending gas-trap, for
maintenance-free* reliability,
with NO moving parts

TRANSPARENT LID DESIGN

- » No need to open or uninstall TruClear
- » Visually inspect for calcium buildup in seconds
- » UV inhibitors ensure the inspection window remains clear for years—even in direct sunlight

*Proper water chemistry is part of the required maintenance.

TECHNICAL DETAILS

- » Produces 18 grams per hour of chlorine for pools up to 35,000 gallons (132,500 liters)
- » 2-port cell, stand-alone system
- » Compatible with variable speed pumps—requires only 20 GPM
- » Easy cleaning with attached cord
- » 120/240 VAC, 50/60 Hz
- » iAquaLink™ control when used with AquaLink® Automation Systems
